Rules and Regulations Trends in Turkey

Ilkay ARIKAN
Secretary General
Turkish Capital Markets Association

ASF Annual General Meeting
Manila– November, 2016
LANDSCAPE IN THE TURKISH CAPITAL MARKETS

In this image, the diagram illustrates various entities involved in the Turkish capital markets, including the Capital Markets Board of Turkey, Borsa Istanbul, Takasbank, MKK, and TCMA. The entities are connected by arrows, indicating their interactions and relationships within the capital market landscape. The infographic highlights investment firms, banks, and portfolio management companies as integral components of this market ecosystem.
• Turkey’s shift to GMT+3 time zone

• Borsa Istanbul’s operating hours changed to 09:40-18:10 as of November 2016
• A new auto-enrolment system introduced, in addition to the existing voluntary private pension system

• Target is 15 mn. participants (Current: 6.5 mn)

• Passed law in August 2016, going live in January 2017

• Applicable to all employees under the age of 45
Expected outcomes:

- promote financial markets
- limit market volatility and stabilize economy
- support infrastructure projects
• Corporate bonds picked up in 2011 with decreasing interest rates

• Recent defaults on corporate bonds

• Industry leaders convened under TCMA

• Increased supervision and regulation expected from the regulator
• Sharia Board at TCMA

• Interest-Free Finance Coordination founded

• Turkey to become key player in Islamic Finance
